Hi Gladys,

I'm **Prince Twumasi with Fastway Delivery Service.** We are a delivery service company that provides top-notch services for our clients covering all the **Accra, Tema and Kasoa** metro areas. We concentrate heavily on client satisfaction over here, naturally.

Im wondering if you might be open to an initial conversation to gauge a fit?

We are currently working with;

- Peace and Love Restaurant
- Candace Hair Extensions
- Jumia deliveries
- Malcom Achimota
- Vion Organic Shop

Just to mention a few.

We are glad to say we have improved the efficiencies of these companies for which they advised their sales has gone up by 15% since we started delivering their products to their customers.

We are;

- A company that loves servicing our clients and delivery packages on behalf of our clients, on time and with no errors.
- A company that looks for long-term partnerships, not just client-company relationships.
- A company that is so confident in what it does that it puts a portion of its fees on the line
- A company that focuses on your growth.
- A company that is loved by its clients.

If you have a minute or two to learn more about us please contact us on (+233) 248 939 278. If I do not hear from you, I will reach out to you via phone later in the week.

Thanks and Regards, Prince Twumasi Sales and marketing (+233) 248 939 278

Landing the First Meeting: Follow-Up Email

This would be used as a follow up to the above email (either the next day or the following week), and I would recommend the subject line: "Sorry I Missed You." We often see 30% to 40% open rates with this email. You will also want to introduce a case study at this point.

Hi [Prospect],

Quickly following up on my email from yesterday. I tried to call you, but was unable to connect. Hoping to set up a call to introduce my company, [company name]. Do you have 30 minutes anytime early next week that would work?

While I have you, I thought you might find some interest in our work with [client]. We helped them [achieve goal] resulting in [ideally you have a % to use here, but any meaningful result will suffice]. You can read the whole story here: [Provide case study link.]
